Re: Letter of Reference: Contracts Manager : Viven Pillay – GEC Electrical

This serves to confirm that I Sharad Harakhchand, in my capacity as Contracts **Director and Senior Contracts Manager** at **Enza Construction** during the period **June 2004 to May 2012** and in my capacity as **Senior Contracts Manager** at **Akhane Construction** during the period **July 2012 to November 2016**, confirm my association and engagement with Viven Pillay, in his capacity as Contracts and Operations Manager at GEC Electrical.

I had engaged with Viven, in his capacity as **Operations and Contracts Manager of GEC Electrical** on various contracts, wherein **his relentless, commitment, dedication and support** to providing the services necessary to effect the electrical installations upon the several projects awarded to GEC, resulted in the success of the project/s, by their completion within the contractual timeframes, to the desired quality standards and the pricing budgets / constraints, resulting in the **success upon the overall project and satisfaction of the Client.**

Some of the projects as listed below are:

1. CIB Office Park – Bedfordview
2. Woolworths – Garankuwa Shopping Centre.
3. Bell Equipment Sales & Workshop Facilities – Middleburg
4. Pharmadule Installation – New OLA Ice Cream Factory for Unilever - Chloorkop.
5. Electrical Installation – Sentico Tea Plant – Nelspruit.

Viven is considered a hardworking, committed, honest and dedicated team player to whom much of the success of the above projects can be attributed.

My work relationship with him and GEC extends almost 13 years, through which period he has not provided a single instance of disappointment in ensuring that which he undertook and committed to, was fulfilled per obligations and expectations of myself or the Client.

For myself and several others in my organizational structure at Akhane Construction, he formed the backbone and pillar following the passing away of the late Jayce Govender in 2013 for GEC electrical, running the company and building the company's success to the organization that it is today.

Viven is extremely hard working, proactive to resolving issues and finding solutions to difficulties and problems that arise and will always provide support and commit unreservedly to the success of any organization his is engaged in or associated with.

I take this opportunity to wish him great success in his future endeavours.

For further verification on this reference I may be contacted on 083 658 8484.

Yours faithfully,

Sharad Harakhchand
Senior Contracts Manager – Akhane Construction
